AGED CITIZEN PASSES AWAY

Native of Maine, But Had Resided in This City For Many Years.

D. S. Savage died last week at the residence of Esq. John M. Morris, just east of the city. Infirmitie incident to advanced age caused death. Mr. Savage was exactly 89 years old, he having passed away on his birthday. The deceased came to this city from Maine many years ago and had since made his home here. He was a lover of bees and devoted his attention to apiculture. He had made his home with Esq. Morris for nearly twenty-five years. Mr. Savage had been twice married and has two daughters. The interment took place at Riverside Cemetery.

Died in Louisville.

An illness of nephritis since January 11 ended in the death of Mrs. Annie Watson, forty-three years old, of 500 West Oak street, at the City Hospital at 5 o'clock this morning. She was the wife of Franklin Watson, of Hopkinsville, Ky., and besides him is survived by two daughters, Mrs. A. G. Warfield and Miss Hazel Watson. Funeral services were held at Mrs. Warfield's residence, 951 South Brook street, Sunday.—Lou. Post.

CONFIRMED PROOF

Residents of Hopkinsville Cannot Doubt What Has Been Twice Proved.

In gratitude for complete relief from aches and pains of bad backs—from distressing kidney ills—thousands have publicly recommended Doan's Kidney Pills. Residents of this vicinity who so testified years ago, now say the results were permanent. This testimony doubly proves the worth of Doan's Kidney Pills to Hopkinsville kidney sufferers. W. T. Fox, grocer, Elkton, Ky., says: "I used Doan's Kidney Pills when suffering from kidney trouble and their good work astonished me. The pains in my back left immediately, my kidneys were strengthened and I felt better in every way."

A PERMANENT CURE.

Over three years later, Mr. Fox said: "I haven't had occasion to use any kidney medicine since Doan's Kidney Pills permanently cured me." Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Fox has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

ANOTHER SPELL OF ZERO COLD

Sunday's Blizzard The Worst One of The Winter.

The worst blizzard of the winter came Sunday, with a drop to zero weather and a fall of one inch or more of snow. It was about the worst spell of weather handed out this season, and plumbers reaped a rich harvest from frozen pipes all over town. A gale blew at 52 miles an hour, and the snow that fell was mixed with dirt until it had a yellow tinge. Better weather is promised for to-day.

SIXTY YEARS OLD.

Chewing Tobacco From The Crop of 1856.

W. H. Hammond, while at Greenville, Tenn., not long ago, secured several plugs of tobacco from a lot confiscated by the U. S. Government for revenue charges about the beginning of the war. It was raised in 1856 and manufactured in 1858. The tobacco was part of a lot of a dozen or more boxes, still nominally held, but long since forgotten. A sample of the tobacco given to Geo. T. Herndon is so hard that it cannot be cut with a pocket knife, but is fine for chewing purposes.

Persian Horses.

The native breed of horses in Persia is widely known throughout the East. There are three types: The Turcoman, celebrated for its strength in the North; the Arab in the South; and the Persian, a cross between the other strains. The last named is sturdier than the Turcoman, and makes a good, rough hack. However, the animal most frequently encountered is the Yabu, a servicable beast, which can be bought at a very low price.

OLD MAID INSURANCE NOW

In Vienna Women Are Able to Obtain Policies on Chances of Marriage.

A form of insurance that is likely to prove popular in America has appeared in Vienna. It is that of insuring a girl against being an old maid. The new form of insurance grew out of the probability that there would be a great shortage of men following the war and a consequent certainty that there would not be enough to go around.

This insurance is just as business-like and efficient in its arrangements as is life insurance, according to the Kansas City Times. Instead of passing upon the applicant's health the agent bases her acceptability as a risk upon her degree of beauty, personal charm and wisely qualities. The prettiest girls are the best risks, the homely ones having to pay the highest premiums.

There appears to be only one difficulty about the arrangement. Who is to fix the age at which the insurance becomes payable? To claim the insurance would be tantamount to an admission on the woman's part that there is no hope of her winning a husband. And a great philosopher has said that a woman resigns the idea of getting married only with life itself. And another equally great philosopher has remarked that hope springs eternal in the feminine breast. So it would seem the insurance company has got all the better of the arrangement.

FOR FUNERAL SIMPLICITY.

Elimination of professional or paid singers and a general toning down in the splendor of funerals of the dead is urged by the Evangelical Ministers' association of Atlanta, Ga. The association adopted resolutions asking that funerals be held on some day other than Sunday where possible, and that lengthy funeral sermons be cut down to a few words. Part of the resolutions read: "We urge upon all people the good form of utter simplicity in all things pertaining to the burial of the dead."

TRAINING JAPANESE ARTISANS.

A realization of the opportunity created by the war for Japan to take the place of Italy in the production of carved coral has led the Japanese government, through the marine experiment stations, to undertake the training of artisans in the carving of coral for sale in Europe and America. It is hoped by this measure to increase the value of coral exports from the \$500,000 received each year for the crude coral exported to \$35,000,000 for exports consisting entirely of carved coral.

Early Marriages Best.

That women are too particular about the kind of husband they want, and that "if they would marry earlier instead of waiting for an ideal angel man to drop from heaven, it would be much better for the people at large," were among the points of an address by John Price Jackson, state commissioner of labor and industry, that created a furor at the annual meeting of the Reading, Pa., Young Women's Christian Association.
